

BioLiNE® Gold - Technical Data Sheet

An effective & affordable tool for helping growers manage their crops.

BioLiNE® Fulvic Acid technology was developed through years of research to improve the transport and assimilation of nutrients by crops. Our products have a proven track record of delivering superior results for growers. Our highly pure and potent liquid fulvic acids can easily be mixed into existing crop inputs and combined with other technologies.

Fulvic Acid Conc.:	3%	Derived From:	Peat	Color:	Golden Amber
Hydrophobic Fulvic Acid Conc.:	2%	Physical Form:	Liquid	Odor:	Sweet and Slightly Acidic
Organic Matter:	3%	Specific Gravity:	1.03 – 1.04	pH:	2.1 – 2.5
Total Dissolved Solids (TDS):	6%	Total Suspended Solids: 0.00% (Fully Dissolved & Free of Precipitates)		Mn (Size): PDI:	334 Daltons < 2.0

Features of BioLiNE® Gold:

- Low Usage Rate: As little as 8 oz/ac (200ml/ac) promotes a positive crop response
- Maximum Purity: Purified using our proprietary Fulv-IQ® multi-staged process targeting specific fulvic acid isolates with high activity and nutrient loading capacity
- Consistency & Reliability: Adhering to stringent QCMS protocols and using advanced analytical technologies to measure, monitor and control production.

Applications of BioLiNE® Gold:

- Ingredient in or tank-mixed with liquid fertilizer and crop inputs
- Tank mix with herbicides, fungicides and pesticides
- Impregnation of solid fertilizers and blends
- Mixed into liquid seed treatment blends

Benefits of BioLiNE® Gold:

Supplementing crop production with fulvic acids help growers improve yields, reduce inputs, and feed soil biology.

Rapid and Even Emergence

Improved Root Growth

Improved Nutrient Transport

Improved Nutrient Utilization Efficiency

Improved Water Use Efficiency

Improved Crops' Natural Stress Resistance

Improved Soil Microbial Population

Improved Crop Growth & Yields

Total Nitrogen (N) %	0.6%
Total Phosphorus (% as P ₂ O ₅)	0.1%
Total Potassium (% as K ₂ O)	1.2%
Sulfur (ppm)	2,350
Sodium (ppm)	770
Calcium (ppm)	695
Magnesium (ppm)	420
Boron (ppm)	2.2
Strontium (ppm)	1.0
Aluminum (ppm)	0.7
Zinc (ppm)	0.4
